

Public Notice to Boil Water

Because of a water line break, the Texas Commission on Environmental Quality (TCEQ) has required our water system, Village of Surfside Beach, Texas PWS TX020037, to notify customers of the need to boil their water **prior to consumption**.

To ensure destruction of all harmful bacteria and other microbes, boil and cool water for drinking, cooking, and making ice **prior to use**. Bring the water to a vigorous, rolling boil and then boil it for two (2) minutes. In lieu of boiling, you may purchase bottled water or obtain water from some other suitable source.

When boiling the water is no longer necessary, the water system officials will notify you that the water is safe for consumption. Instructions to discontinue boiling will be issued in the same manner as this notice.

If you have questions concerning this matter, you may contact City Hall at 979-233-1531. This notice is issued on March 2, 2015.
