20250228-5	Bluewater HWY	Pick up trash and remove hurricane debris	Toby	Streets/Park	Troy, Xa Christiar Michael

Building Department Monthly Council Report: March 2025

1. **County Park:** The County has begun a repair project at the butterfly trail, which includes shoreline protection, repair of the walking bridge, kayak launch and refreshing of the path.
2. **Corner lots of 322 and Ft. Velasco:** I have had several pre-development meetings with the new owner who is currently planning a new restaurant/bar and includes an event area and two retail shops, these discussions have ranged from satisfying parking requirements, drainage runoff, sewer and water tie-ins, traffic flow issues, ADA requirements, County health requirements, etc. I have also asked that no ingress or egress be allowed from Hwy 332.
3. **New Grocery Store:** The owners are nearly complete the finishing touches and continue to work with the County Health department, and the Village, they hope to open by the end of March early April depending on circumstances.
4. **Stahlman Park:** The main structure of the walkover is complete, but due to site changes that the GLO requested, we will need to add a portion at the end on the beach side, and pour the concrete sidewalk from the building.
5. **Crabbing Pier:** Has been completed. Next phase for that property is to repair/replace the boardwalk that fronts the water and add an ADA ramp from the parking lot.
6. **GLO:** After completing a tour of the beach with the GLO to look at the progress and efforts of after storm recovery of the beach and dunes, Stahlman park dune restoration and walkover, they seemed content and had only positive things to say.

March 11, 2025, Council meeting

Case Reports for November.
