## **Building Department Monthly Council Report: April 2025**

- Palm Point Subdivision: Located at the corner of Gulfway Ct and Bluewater Hwy, this
  subdivision was originally approved as a replat and given a development permit in 2016 by
  the Village. They have finally begun the development process which had previously been
  held up by the USACE and will work with this department in a new development permit and
  securing building permits for up to nine new homes.
- 2. **Stahlman Park**: Nearly complete with the concrete sidewalk in place and beach side piles driven, and with only the small amount of framing to complete. The previously mitigated dunes look fantastic and have an abundance of new vegetation growth.
- 3. **Dorado's Bar & Grill:** Had an interesting callout to look at possible structural damage caused by a barge when it took out a portion of the deck, this happened on Saturday March 15<sup>th</sup> around 6:00 PM, fortunately no major damage was seen on the main structure and after talking the owner through some safety modifications, they were allowed to open the next day.
- 4. **Zoning/Codes:** 21 Building permits issued, 4 pending fill lot permits, one new home and one building demolition, 15 code enforcement violations, 2 OSSF (septic) permits, and one replat request turned over to P&Z.
